- 3. (Cancel)
- 4. (Cancel)
- 5. (Cancel)
- 6. (Currently Amended) A method of formulating alternative programming, comprising:

releasing a plot via a website;

embedding alternative plots into channels;

receiving user votes via the website for the alternative plots;

tabulating the votes; and

based on the tabulation, sending an instruction to switch to an alternate channel for a particular alternative plot;

receiving a batch of program data associated with a program;

scanning the batch of program data to determine how much of the program data will be blocked;

when an amount of blocked program data exceeds a threshold, then blocking the entire program; and

receiving control data comprising control instructions to alter a display screen at coordinates specified by the control data.

- 7. (Previously Presented) The method of claim 6, wherein sending the instruction comprises sending the instruction to a transmission facility.
- 8. (Previously Presented) The method of claim 7, further comprising linking the website to the transmission facility such that the instruction is automatically sent based on the tabulated votes.

Attorney Docket: 00023 U.S. Application No. 09/751,809 Examiner Brown, Art Unit 2611 Response to August 23, 2007 Office Action
